

May 27th – Steering Committee Meeting

6:30 to 8:00 Steering Committee

Topic:

- Continue Discussion on Allowed/Prohibited Uses and Zoning Standards. We will review a draft list of uses and zoning standards prepared by staff. This draft will have been e-mailed out several days in advance of the meeting. It is presumed that the draft e-mailed out to the group will trigger an e-mail dialogue. Some items will be resolved through e-mail and others will need to be talked about during the meeting.

Goal:

- Provide staff with direction on the list of uses and zoning standards.

8:00 to 8:30 Steering Committee

Topic:

- Introduction to Development Regulations. We will walk through an overview of the issues that need to be addressed – architecture, landscaping, signs, lighting, overlays, etc. and provide examples of other jurisdictions. Staff will have sent out a list of questions in advance of this meeting that are intended to provoke some thoughts on these issues.

Goal:

- Staff would like to hear some preliminary informal feedback on the questions that are sent out in order to give us some direction on preparing draft language.
