Acknowledgments

This project was made possible by the commitment of the Island County Board of Health, Island County Community Health Advisory Board and the Island County Health Department management and staff. Building the capacity to create such a report has required the dedication of Health Department staff time as well as input from many individuals and organizations from Island County and Washington State. We thank everyone who gave time, skills, and experience.

Technical Support:

Jane Wright, Kitsap County Health Department ♦ Mary Ann O’Garro, Thurston County Public Health and Social Services Department ♦ All the staff at the Washington State Department of Health who contributed to *The Health of Washington State* and Juliet Van Eenwyk, PhD, MS, lead author who responded to local health jurisdictions’ request for an easily adaptable format.

About the Report

This report is intended to provide information on a wide range of health and safety issues relevant to Island County. It is hoped that increased awareness of the factors impacting our well-being will empower more of us to work together to promote the overall health of our community. Data is provided and distributed in hopes that regional health and social service agencies will use the data in writing grants, focusing programs/projects in areas of greatest need, and nurturing community partnerships.
