

**10:15 a.m. April 3, 2009 at Four Springs House meadow.  
585 Lewis Lane, Camano Island**

The Hearing Examiner has decided that to conduct an additional public hearing on the limited issue of possible ways to improve the visual impacts of the proposal and to further protect the rural character of the general area. The Hearing Examiner will hear testimony only on ways to modify the Site Plan in order to better protect the rural character of the area. Issues that the Hearing Examiner would like to discuss include fencing, downsizing the graveled areas, and possible reorientation of the buildings to further minimize the visual impacts from adjacent parcels and from the county roadways.
