The Island County Planning Commission will be conducting a public workshop on September 18th from Noon to 3:00 p.m. at the Island County Commissioner's Hearing Room in Coupeville. The purpose of the workshop will be for Planning Department staff to provide an overview of comments received from the public, state agencies and peer review groups on the draft amendments to the County's proposed wetlands ordinance. Staff will also be providing suggestions to the Planning Commission as to how those comments may be incorporated into the proposed wetlands ordinance. This is a Planning Commission workshop and not a public hearing which means that there will be minimal or no opportunity for public input. It is an opportunity for the public to listen to discussions between the Planning Commission and staff. Public hearings will be held in October and/or November.
