Private Street Name Signs

Private street names may be up to 16 letters long, including spaces. Do not include the extensions of LN, RD, etc. (lane, road,...) or the designation as PVT (private) in this number.

Three grades of sign material are available; EG, SEG, and HI. The materials vary in retroreflectivity and durability. Retroreflectivity is a measure of how well headlights reflect off the sign at night. EG has the least retroreflectivity, SEG has slightly more, and HI has the highest retroreflectivity of the three. The materials are rated for expected life span of the product, EG and SEG are rated at a 7 year life span and HI is rated at a 10 year life span.

PRIVATE STREET NAME SIGN COSTS:

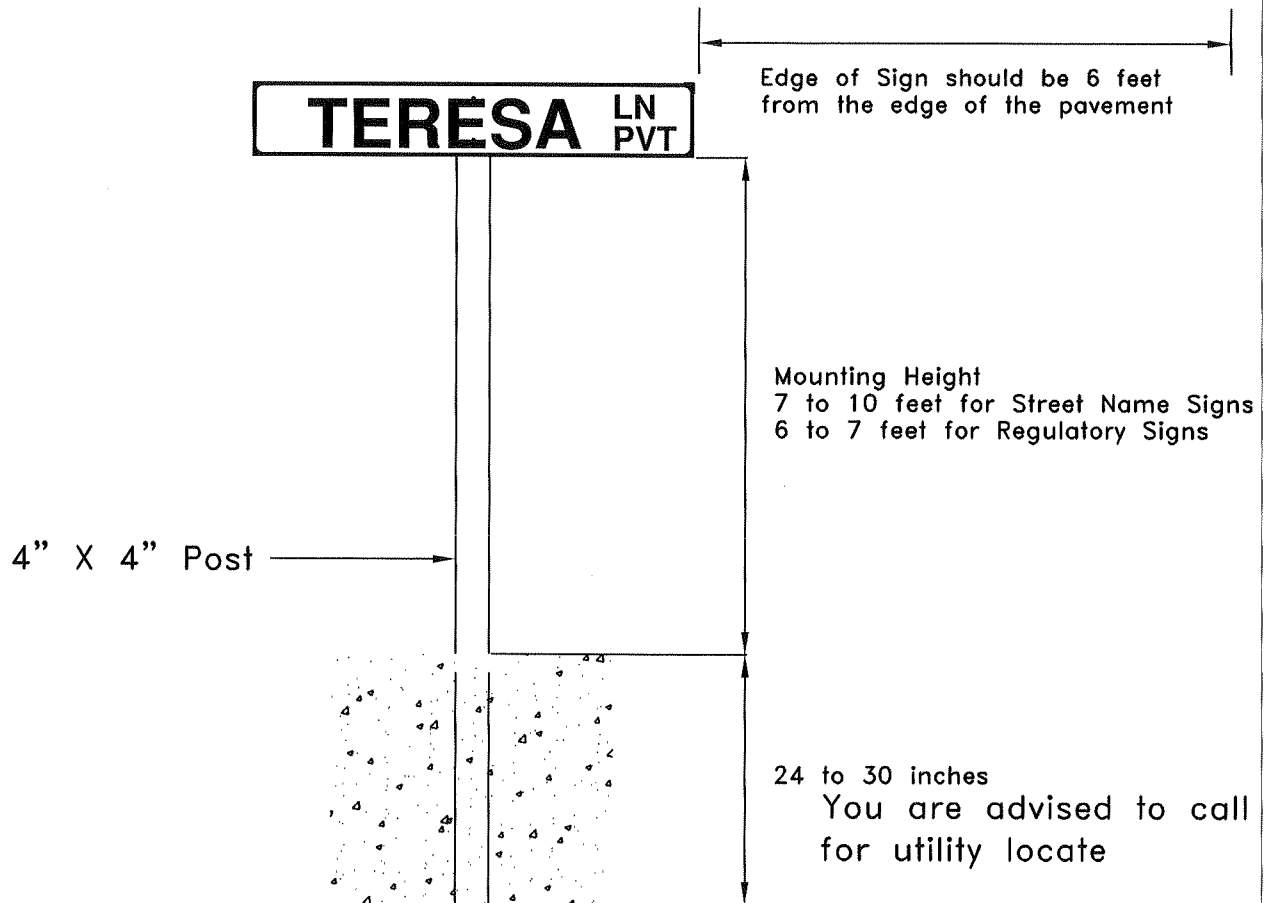

Price listed is for a set of two single sided signs.

	REFLECTIVITY		
	EG (2 signs)	SEG (2 signs)	HI (2 signs)
up to 6 letters (24-30 inch wide signs)	\$32.21 (+ \$2.71 Tax)	\$19.40 (+ \$1.63 Tax)	\$38.81 (+ \$3.26 Tax)
